PROFESSIONAL SUMMARY

A Computer Engineering graduate from Syiah Kuala University (GPA 3.38/4.00) with a specialization and deep interest in Data Analysis, Data Science, Artificial Intelligence and Software Development. Backed by two years of professional experience in the creative industry (Graphic Design, Video Editing, and Social Media Optimization), which honed skills in data visualization, cross-departmental communication, and creative problem-solving. Possesses a proven track record in processing research data using SQL and Python, building automation solutions, and managing data driven logistics operations. Highly adaptable enriched by a national student exchange experience through the Kampus Merdeka program and ready to contribute to data-driven decision-making and the development of innovative technology products.

TECHNICAL & PROFESSIONAL SKILLS

Data Anlaytics & Data Science	: SQL, Python, Data Cleaning, Web Scraping, Data Processing, Machine Learning Predictive Modeling, Statistical Analysis and Data Validation.
Analysis Tools	: Power BI, Tableau, Microsoft Excel, and Jupyter Notebook.
Software Development	: Mobile Development (Kotlin and Flutter), Web Development and API Integration.
Creative	: Adobe Photoshop, Adobe Illustrator, Canva, CapCut, UI/UX Design, Product Photography and Social Media Specialist.

WORK EXPERIENCE

UPTD Museum Tsunami Aceh October 2025 – November 2025
Social Media Specialist Internship

- Created and curated educational historical content and operational updates for the official social media channels of the Aceh Tsunami Museum to boost audience engagement rates.
- Designed and structured monthly content calendars to ensure consistent publication of historical narratives and event promotions.
- Served as the official documentary for large-scale public events and state visits at the museum, producing digital publication assets.

Dindinshop August 2024 – August 2025
Warehouse Staff

- Supervised incoming and outgoing distribution flows and led regular monthly stock taking execution to maintain high inventory accuracy.
- Compiled periodic sales reports and designed visualizations of inventory turnover trends using Microsoft Excel to support management in product procurement decisions.

- Built a more structured inventory tracking system to accelerate data retrieval and minimize the risk of inventory discrepancies.

Dindinshop February 2022 – July 2024
Graphic Designer

- Directed product photography shoots for digital and print fashion catalogs to strengthen the brand's visuals identity.
- Produced and edited high-converting creative video content for social media platforms to increase customers interaction and brand reach.
- Designed various promotional and corporate assets, including lanyards, banners, billboards, and marketing campaign posters.

Badan Pusat Statistik Aceh March 2023 – April 2023
IT internship

- Conducted data cleaning and preprocessing on macroeconomic survey data using Python (Pandas &NumPy) to ensure data accuracy and validity prior to analysis.
- Designed and developed an interactive Telegram chatbot using Python as an automated public information service to accelerate data distribution for citizens.
- Collaborated with the IT team to optimize the data entry website platform, minimizing human error and accelerating field survey data input processes.

EDUCATION & EXCHANGE PROGRAM

Universitas Syiah Kuala August 2020 – February 2025
Bachelor of Engineering (S.T) in Computer Engineering

Kampus Merdeka Program – Merdeka Student Exchange
Universitas Gadjah Mada & Universitas Pamulang

- Adapted to new academic environments and collaborated with peers across Indonesia, enhancing social awareness and cross-cultural communication skills.
- Participated in regional customs and cultural exploration through the Nusantara Module, including culture visits to Kota Tua and South Tangerang.
- Initiated and executed a community service project by building a "Reading Corner" facility at an elementary school school in Pamulang to improve student literacy.

PROFESIONAL TRAINING & CERTIFICATION

Microsoft – Data Analysis with Excel Certification
Focus: Utilization of complex formulas, Pivot Tables, Power Query, and creating interactive business data dashboards.

Google – Data Analysis with Python Professional Certificate
Focus: Implementation of data preprocessing, array and dataframe manipulation using NumPy and Pandas, and advanced data visualization.

BPVP Aceh – Digital Marketing Optimization via Social Media (BNSP Certified)
Focus: End-to-end content strategy design, paid advertising management (Paid Ads), social media data insight analysis, and digital performance metrics reporting.

Digitalent Scholarship – Data Science (KOMDIGI)
Focus: Data processing (cleaning, web scraping, validation), interactive visualization with Python, and training Machine Learning predictive models.

Bangkit Academy Cohort – Mobile Development (Google, GoTo, Traveloka)
Focus: Native Android application development using Kotlin, Android Jetpack, MVVM architecture, and intensive software skills training (growth mindset, critical thinking).

ORGANIZATIONAL EXPERIENCE

Computer Engineering Student Association (HIMATEKKOM) USK
Head of Talent and Interest Division

- Conceptualized and executed 8 strategic programs in sports and student creativity to internal channels departmental potential.
- Led, coordinated, and delegated tasks effectively to 20 division members to ensure smooth operations execution of all activities.
- Built partnerships and negotiated with external sponsors to secure additional funding to support major sustainable events.

LANGUAGE CERTIFICATION

ETS CIKINI TOEFL ITP Certificate – Score : 497
